[Docket No. CP99-150-001]

NorAm Gas Transmission Company;
Notice of Amendment of Request
Under Blanket Authorization

February 4, 1999.

Take notice that on January 27, 1999, NorAm Gas Transmission Company (NGT), 1111 Louisiana, Houston, Texas 77002-5231, filed in Docket No. CP99-150-001 an amendment to the pending request filed on January 12, 1999, in Docket No. CP99-150-000, to reflect changes in the facilities originally proposed, under NGT's blanket certificate issued in Docket No. CP82-384-000 and CP82-384-001 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

NGT proposed in its original request to (1) abandon a 6-inch tap and relocate the existing skid mounted meter station located on Line LM-2 to a new location on Line BT-1; and (2) construct and operate a 2-inch tap on Line BT-1 and 380 feet of 4-inch diameter pipe (Line BT-20) to continue to provide reliable service to Reynolds Metals Company (Reynolds).

NGT states that subsequent to the original application that was noticed on January 19, 1999, Reynolds has requested that NGT construct a 4-inch tap on Line BT-1 and 380 feet of 6-inch diameter pipe (Line BT-20). NGT states the remainder of the application remains unchanged.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Linwood A. Watson, Jr.,
Acting Secretary.

[Docket No. RP96-200-036]

NorAm Gas Transmission Company;
Notice of Proposed Changes in FERC
Gas Tariff

February 4, 1999.

Take notice that on February 1, 1999, NorAm Gas Transmission Company (NGT) tendered for filing as part of its FERC Gas Tariff, Fourth Revised Volume No. 1, the following revised tariff sheets to be effective February 1, 1999:

Sixth Revised Sheet No. 7E.2

Fifth Revised Sheet No. 7E.3

NGT states that the purpose of this filing is to reflect the implementation of a new negotiated rate transaction.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

DEPARTMENT OF ENERGY

Federal Energy Regulatory
Commission

[Project Nos. 935, 2071, 2111, and 2213]

PacificCorp (Public Utility District No.
1 of Cowlitz County); Notice of
Request To Use Alternative
Procedures in Filing License
Applications, Defer Action on a Future
License Application, and Accelerate a
License Expiration Date

February 4, 1999.

By letters dated January 21, 1999, PacificCorp and Public Utility District No. 1 of Cowlitz County (licensees) have asked to use an alternative procedure in filing applications for new licenses for PacificCorp's Merwin Project No. 935, Yale Project No. 2071, Swift No. 1

Project No. 2111, and Cowlitz PUD's Swift No. 2 Project No. 2213. The projects are located in sequence on the North Fork Lewis River in Cowlitz, Clark, and Skamania Counties, Washington. License applications are due to be filed on: April 30, 1999 for the Yale Project; April 30, 2004, for the Swift No. 1 and No. 2 Projects; and December 11, 2007, for the Merwin Project.

The licensees are proposing to consolidate the relicensing of these projects under a single process which would involve accelerating the license expiration for the Merwin Project to April 30, 2006, and delaying action on the Yale Project application. An applicant-prepared environmental assessment would be filed on all four projects by April 30, 2004, when the Swift No. 1 and No. 2 applications are due.

The licensees have demonstrated that they've made a reasonable effort to contact the resource agencies, Indian tribes, non-governmental organizations (NGOs), and others who may be affected by their proposal, and have submitted a communication protocol governing how participants in the proposed process may communicate with each other. The licensees have also submitted several letters of support for their proposal, and it appears that the use of an alternative procedure may be appropriate in this case.

The purpose of this notice is to invite comments on the licensees' request to use alternative procedures, as required under the final rule for Regulations for the Licensing of Hydroelectric Projects.¹ We are also interested in comments on the proposal to delay action on the Yale license application, and accelerate the termination date for the Merwin Project license. Additional notices seeking comments on specific project proposals, interventions and protests, and recommended terms and conditions will be issued at a later date.

The alternative procedure being requested here would combine the prefiling consultation process with the environmental review process, allowing the applicants to file an applicant-prepared Preliminary Draft Environmental Assessment (PDEA) in lieu of Exhibit E of the license applications. This differs from the traditional process, in which the applicant consults with agencies, Indian tribes, and NGOs during preparation of the application for the license and before filing it, but the Commission staff performs the environmental review after the application is filed. The alternative
